Improve hair quality,
make hair smooth and supple

Enrich

Moisturizes hair,
rejuvenating hair
and providing new vitality

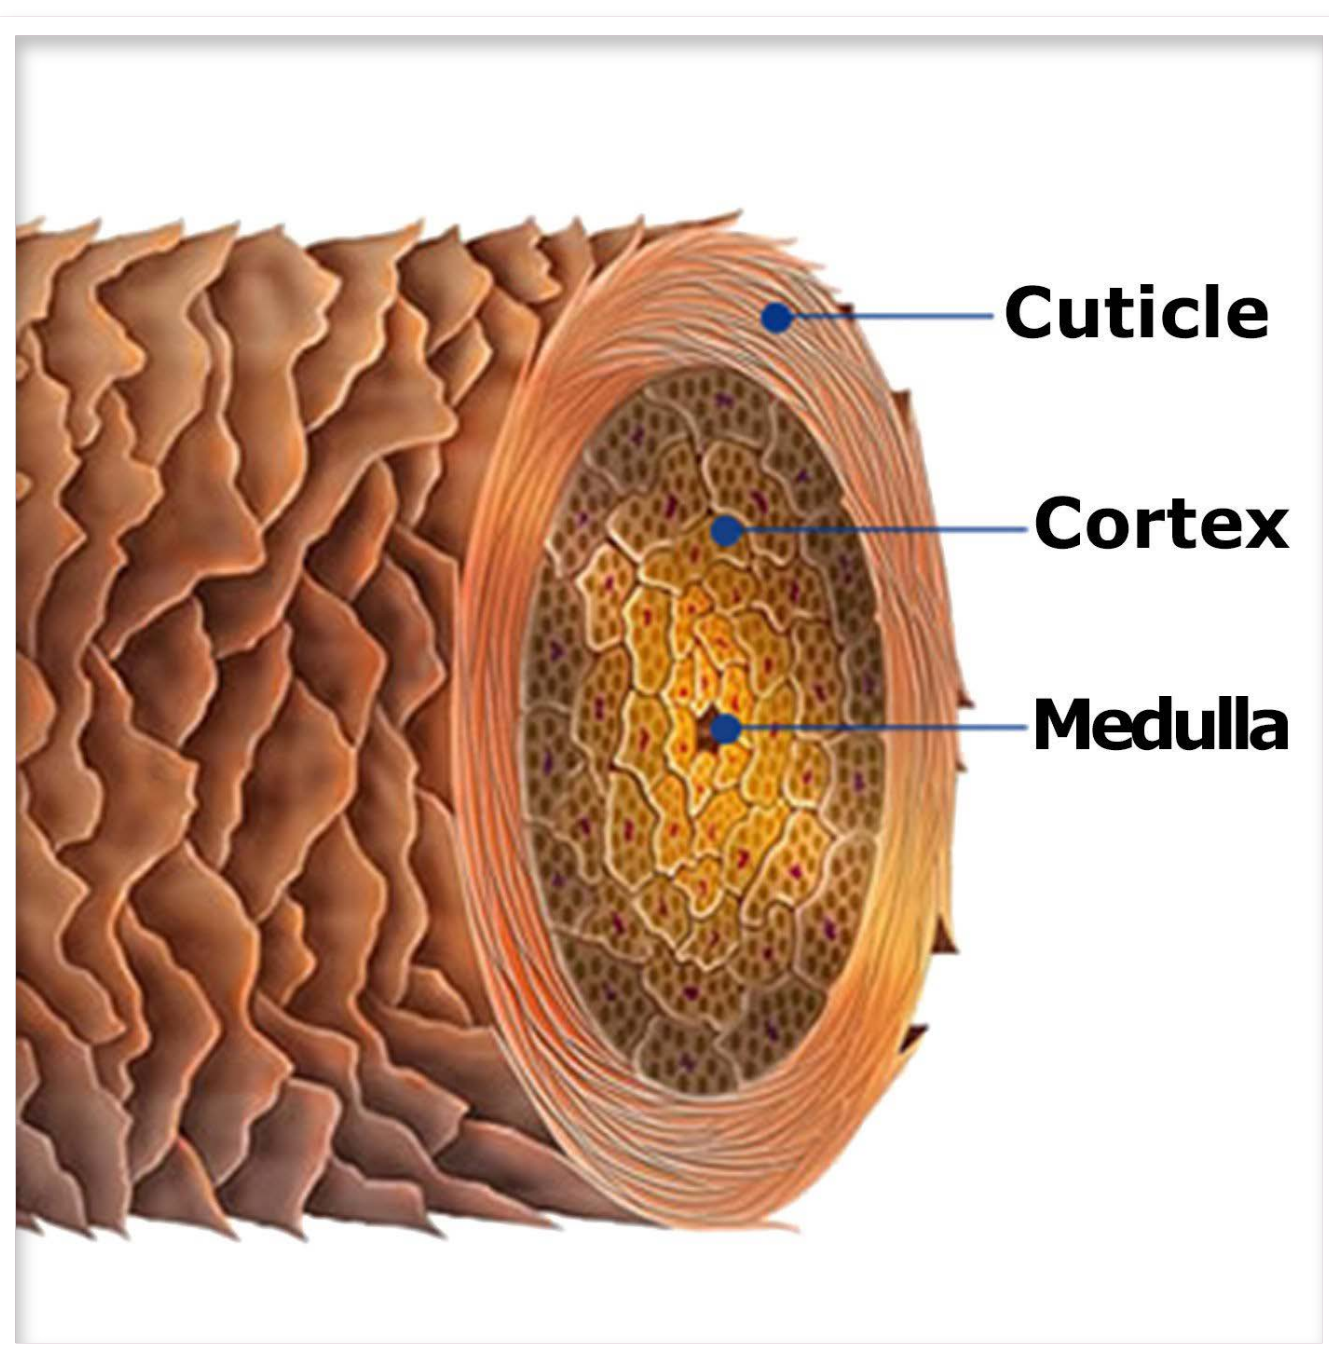

RESTRUCTURING HAIR SPA

What's the difference between DCURE Restructuring Hair Spa and hair conditioner in the market?

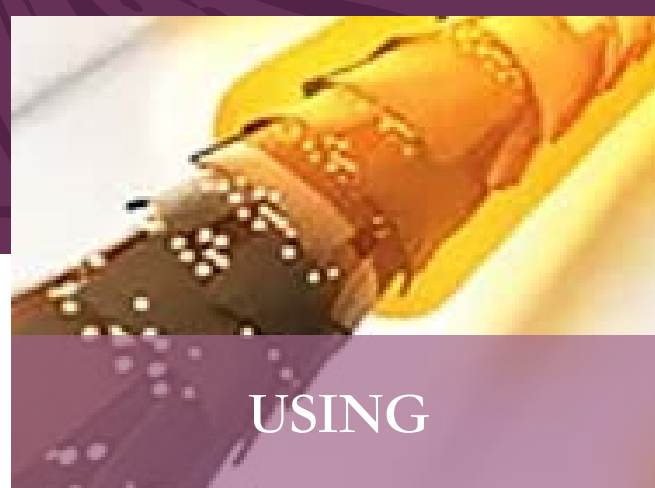

“

The function of the DCURE Restructuring Hair Spa is to deeply nourish the hair and deliver the nutrients to the innermost layer of the hair core (the third layer of the hair – the medulla) to solve the hair's thin and fragile, extremely dry, large area fork, dandelion Hair quality and other issues.

”

The medulla is located in the center of the hair and has heat insulation to protect the head and prevent direct sunlight. A small number of people with very soft hair, hair without medulla, yellowish color.

Damage to the medulla may be caused by damage to the depth of the hair, poor nutritional supply to the scalp, and so on.

The DCURE Restructuring Hair Spa contains extremely high nutrients. After cleaning the hair, spread the hair mask evenly on the hair and wait 3 minutes before rinsing with water.
